Deutscher Schraubenverband e.V.

German Fasteners Association appoints new General Manager

The board of the German Fasteners Association has appointed Dr. Stefan Beyer as the new General Manager of the association. He will take over this job by the 1st of June, 2010 from Frank Naumann who was in this position for more than 10 years. He will retire at this time.

Dr. Beyer is in the fastener business since he left the Technical University of Darmstadt as R&D manager for ABC Umformtechnik, Gevelsberg. At the same time he was the Chairman of the Technical Board of the German Fasteners Association. Furthermore, he works in several technical committees of VDA and DIN, dealing with mechanical fasteners.

His long and skilled experience will ensure the successful continuation of the sophisticated technical and commercial work of the German Fasteners Association.
